

2016 IEEE
International Instrumentation
and Measurement Technology
Conference

“Measuring the Pulse
of Industries, Nature
and Humans”

May 23-26, 2016 | Taipei International Convention Center | Taipei, Taiwan

Call for Papers - Industry Papers

I²MTC 2016 conference spans research, development and applications in the field of instrumentation and measurement science and technology. To enhance industry engagement and increase exchange between industry members, as well as between industry and academic members, I²MTC 2016 conference is introducing Industry Sessions. These sessions will focus on all aspects of instrumentation and measurement technologies, methods, and applications achieved by our industry colleagues, giving an opportunity to the I&M industry to present to their colleagues their new technologies, new applications, or even new challenges.

Prospective authors are invited to submit an **EXTENDED ABSTRACT** of maximum 3 pages in IEEE format. The **FIRST** or the **CORRESPONDING** author must be from industry. Each paper must be within the scope and topics of I²MTC, follow the same formatting guidelines provided on the I²MTC website, explain the significance of the technologies/methods/applications in the paper, and contain a list of key references. Authors of accepted papers must register for the Conference and attend to present their papers in the industry sessions.

Accepted papers will appear in the conference proceedings distributed during the conference, but will not appear in IEEE Explore. However, authors of papers presented during I²MTC 2016 will be allowed to submit extended versions of their papers to the Special Issue of IEEE Transactions on Instrumentation & Measurement on I²MTC 2016, to be published in 2017.

IMPORTANT DATES

March 1, 2016 - Submission Deadline

March 10, 2016 - Notification of Paper Acceptance
